Government of Karnataka

Higher Education

“Higher education is not simply in terms of skill building and employability. Equally important is to transcend the framework of citizenship education, that is, higher education as a means for grooming good citizens. Higher Education in Karnataka is one of pursuits of truth. The benefits of higher education may accrue to individuals or societies as the case may be, but the pursuit of truth is neither social nor individual. Higher education is open for all in Karnataka. Internalization of Higher Education in Karnataka will bring in global excellence for the benefit of all”.
