

To whomsoever it may concern

I Navya N persuing my MSc in Department of Biochemistry, University of Mysuru would like to express my gratitude for providing the instrumentation support. As an inturn with your organization I had the opportunity to explore myself to new technologies such as the microscope with cameras to capture several images from biological samples and other techniques such as PCR machine, water bath and centrifuge. It provides a valuable and important service that helps improve the quality of learning and immense support for my academics. I am thanking you for providing this wonderful opportunity to expand my skills and knowledge.

TO WHOMSOEVER IT MAY CONCERN

I Kaushik. M, studying Master of Computer Application (MCA) at Department of Studies in Computer Science, University of Mysore, Mysuru. I am very happy to say that I am getting maximum benefits from the RUSA computer laboratory for the improvement of my academic knowledge. In the laboratory, I mainly practice the problem solving techniques using different programming environment such as C, C++, JAVA, Matlab and Micorsoft Visual Studio. In addition to this, I make use lab computers for the purpose of project work documentation, internet browsing, downloading study materials, and referring to the web resources.

KAUSHIK.M

To whomsoever it may concern

I Eresh persuing my MSc in Department of Biotechnology, University of Mysuru. I would like to express my sincere gratitude for providing the instrumentation support to our Department. With your support I had the opportunity to explore myself to new technologies such as the microscope with cameras to capture several images from biological samples and other techniques such as UV-Spectrophotometer, Deep freezer, pH meter, PCR machine, cold centrifuge help us to isolation , analysis the different biological samples and in storage of those samples and helps to improve the quality of learning and immense support for my academics. I am happy that these new equipments in our lab will encourage the upcoming students for their studies. I hope this skills will give support to my career and will play a key role in achieving my educational dreams. I would like to take this opportunity to thank you for your generosity in providing instrumentation to expand our skills.
